Gentlemen,

It's time to stop this foolishness. Why punish successful businesses?
If a competitor isn't competing, let him die. What you're doing to
Microsoft is ridiculous. Why not punish WalMart and target for putting
K-Mart into bankruptcy? What's the difference? Or is it that K-Mart
management hasn't asked you?

Why is it that you love capital but hate capitalism?

Regards,
Edwin S. Oxner
